Profile

I'm a graphic designer focused on UX/UI design and branding. I'm working currently as UX/UI designer in Edelman, a world wide company that creates experiences for companies around the globe.

I've worked for 8 years in agile methodologies and inbound marketing. For the past year I've had the chance to work for US based companies building and creating interactive websites and experiences collaboratively with producers and other designers within Edelman Studio.

I have experience creating interactive prototypes in Figma, building design systems that matches with brand guides and UX design methodology. Also worked as team director and leadership, Growth driven design projects for websites, inbound marketing and Hubspot CRM, conceptualization and brand design, HTML5 and CSS3 knowledge, ebooks and print design, digital print among others.
